EXPERIENCE

Infosys Springboard 7.0 2026

Team Lead, SalesGenie AI

- Leading a cross-functional team in building an AI-powered Sales Intelligence Platform, owning coordination from requirement gathering through delivery.
- Defining product requirements and coordinating AI-driven modules for lead management, outreach generation, and sales analytics.
- Facilitating stakeholder communication, sprint planning, and feature prioritization to ensure timely and aligned product delivery.

PROJECTS

Tryo | E-commerce Platform 2025

- Worked with the team to enhance the customer journey by improving the usability and overall shopping experience of the platform.

MarkDarshan | Community Logistics Platform 2025

- Collaborated with team members to improve usability and overall user experience.
- Contributed to designing a user-friendly dashboard that improved visibility of key information and supported better decision-making.

NxtStep | Career Counseling Platform 2024

- Led product development of a platform helping users navigate career paths and set actionable milestones.
- Improving user engagement by 75% and tested on 30+ users.

ACHIEVEMENTS

- Organized **World Education Day** for the Education Technology department, coordinating event planning, logistics, and execution with **100+ participants**.
- Won **2nd Place** in an **Infographic Poster Competition** for presenting complex information through impactful visual storytelling.
- Led the college **Kabaddi Team** to **1st Place**, demonstrating leadership, teamwork, and strategic decision-making under pressure.
- Volunteered with an NGO during the **COVID-19 pandemic**, contributing to fundraising campaigns and community outreach initiatives.
- Selected as **Team Lead** for the Infosys Springboard 7.0 project, managing a team of four to build an AI-powered Sales Intelligence Platform.
- Actively participated in the **Education Technology Club**, contributing to technical events, workshops, and collaborative learning activities.
